VINEYARD
In conversion to MPB. Oriented northwest-southeast, conducted in a royat bi-lateral cordon.

VINIFICATION
After a careful and meticulous harvest of the best grapes, the grapes were sent to a refrigerated container, where they spent 12 hours at 6°C. The next day, after being transported to the winery in a refrigerated environment, they were completely destemmed and crushed at the entrance of the press. Pressing was direct and gentle, up to 0.8 bar, and decanting was static, cold (8°C/9°C). Fermentation took place at a controlled temperature of 16°C for 20-30 days. After alcoholic fermentation and a clean slate, the wine aged for 6 months in stainless steel on the fine lees.

WINE
A aromatic profile, youthful and inviting, with white and yellow pulp fruit and a little bit of tropicality. The mouth follows the nose. Fresh and vibrant on the palate, shows a fine, precise acidity which gives it an attractive liveliness and leads to a tense, exciting ending.

GASTRONOMY
Its freshness and pronounced acidity make it versatile and capable of matching different styles and structures of dishes. Grilled fish, shellfish and Asian food are successful combinations. Vegetarian risottos, white meats and Italian food also offer a very interesting paring and a well-matched experience.
